

# ABOUT SOFT PAWS FOR CATS

---

The application is simple.  
Just fill each nail cap with the adhesive provided, and slide it on over the nail.  
It's that easy!

**Invented by a veterinarian**, Dr. Toby Wexler, Soft Paws® have been on the market since 1990. Each Soft Paws take home kit contains everything required to apply the nail covers at home including easy-to-follow instructions.

**This is an amazing product that really works.** Most cats tolerate Soft Paws extremely well. The vast majority of cats don't even know they are wearing them. If you would like to read some comments from people already using Soft Paws, please visit our [testimonials page](#).

**Soft Paws are extremely safe and non-toxic.** The adhesive is the same type of adhesive used in many veterinary procedures. The caps and dried adhesive are non-toxic and completely safe.

**Soft Paws will not interfere with the normal extension and retraction of your cats nails.** Your cat can still scratch with Soft Paws® allowing normal stretching and scratching behavior to continue -- just no damage will occur.

## VET-APPROVED TO STOP PROBLEM SCRATCHING

**Economical Price! Only \$18.95 per package = 4 - 6 Month Supply**

Each Soft Paws kit contains 40 nail caps, 2 tubes of adhesive, 6 applicator tips and easy-to-follow [instructions](#).

However, to answer the most commonly asked question we receive... "**Do Soft Paws really work?**" ...we'll let one of our satisfied customers respond:

*"My cat, Chandler, has been wearing the Soft Paws for about 2 weeks. They are GREAT! No more scratching on my new couch, no more accidental cat scratches. He was slightly resistant at first, but the picture I am attaching was taken about 3 minutes after application. He looks as snug as a bug in a rug! Thanks for the great product!"*

**- Gina B., Las Vegas, NV**

The answer is: **Yes! They really work!** Read more [testimonials](#).
