## For Healthy, Flexible Joints

MegaFlex is comprised of important nutrients for dogs and cats to complement their overall diet. MegaFlex is a high potency formula designed to nourish and support connective tissue for healthy, flexible joints and comfortable movement. The formula features glucosamine sulfate, a critical precursor of synovial fluid and a necessary nutrient for rebuilding cartilage and improving joint function.

Research studies at leading institutions have shown that glucosamine sulfate has a low molecular weight, thus enabling it to easily penetrate the villi of the small intestine and thus be well absorbed and utilized.

**NetWt. 21.16 oz (600 g) Powder/ 600 Capsules**  
**1 Scoop (1 tablespoon) / 4 Capsules Contain:**

Glucosamine Sulfate (aminomonosaccharide) . . . .	1000 mg
MSM (methylsulfonylmethane) . . . . .	500 mg
Sea Cucumber (pseudo-colochirus axiologus) . . . .	300 mg
Vitamin C (ascorbic acid) . . . . .	10 mg

### Recommended Usage (Powder):

- 1 heaping scoop for very large dogs (over 100 lbs.)
  - 1 level scoop for large dogs (75-100 lbs.)
  - 3/4 scoop for medium dogs (50-75 lbs.)
  - 1/4 to 1/2 scoop for small dogs and cats (0-50 lbs.)
- Dosage may be doubled for the initial 4-8 weeks of treatment for a more rapid response.

### Recommended Usage (Capsules):

- 6 capsules for very large dogs (over 100 lbs.)
- 4 capsules for large dogs (75-100 lbs.)
- 2 capsules for medium-sized dogs (50-75 lbs.)
- 1 capsule for small dogs (up to 50 lbs.)
